

NGENVIRONMENT

Foster European Active Citizenship and Sustainability
Through Ecological Thinking by NGOs

Project Nummer: 2018-1-DE02-KA204-005014

The project NGEnvironment

NGEnvironment arises as a relevant contribute for the EU horizontal priorities of improving relevant and high-level basic and transversal competences of EU citizens, in the scope of adult education and under the perspective of lifelong learning, as it aims at capacitate new leaders for change engagement, improving entrepreneurial, foreign language and digital skills and fostering employability, socio-educational and professional development, through NGO action.

The eight project partner are coming from Germany, Portugal, Greece, Malta, Ireland, Spain, Italy and Romania. Coordinator of the project is the German University Paderborn, Chair of Business and Human Resource Education II.

The project started on the 1st of September 2018 and ends after three years on the 31st of August 2021.

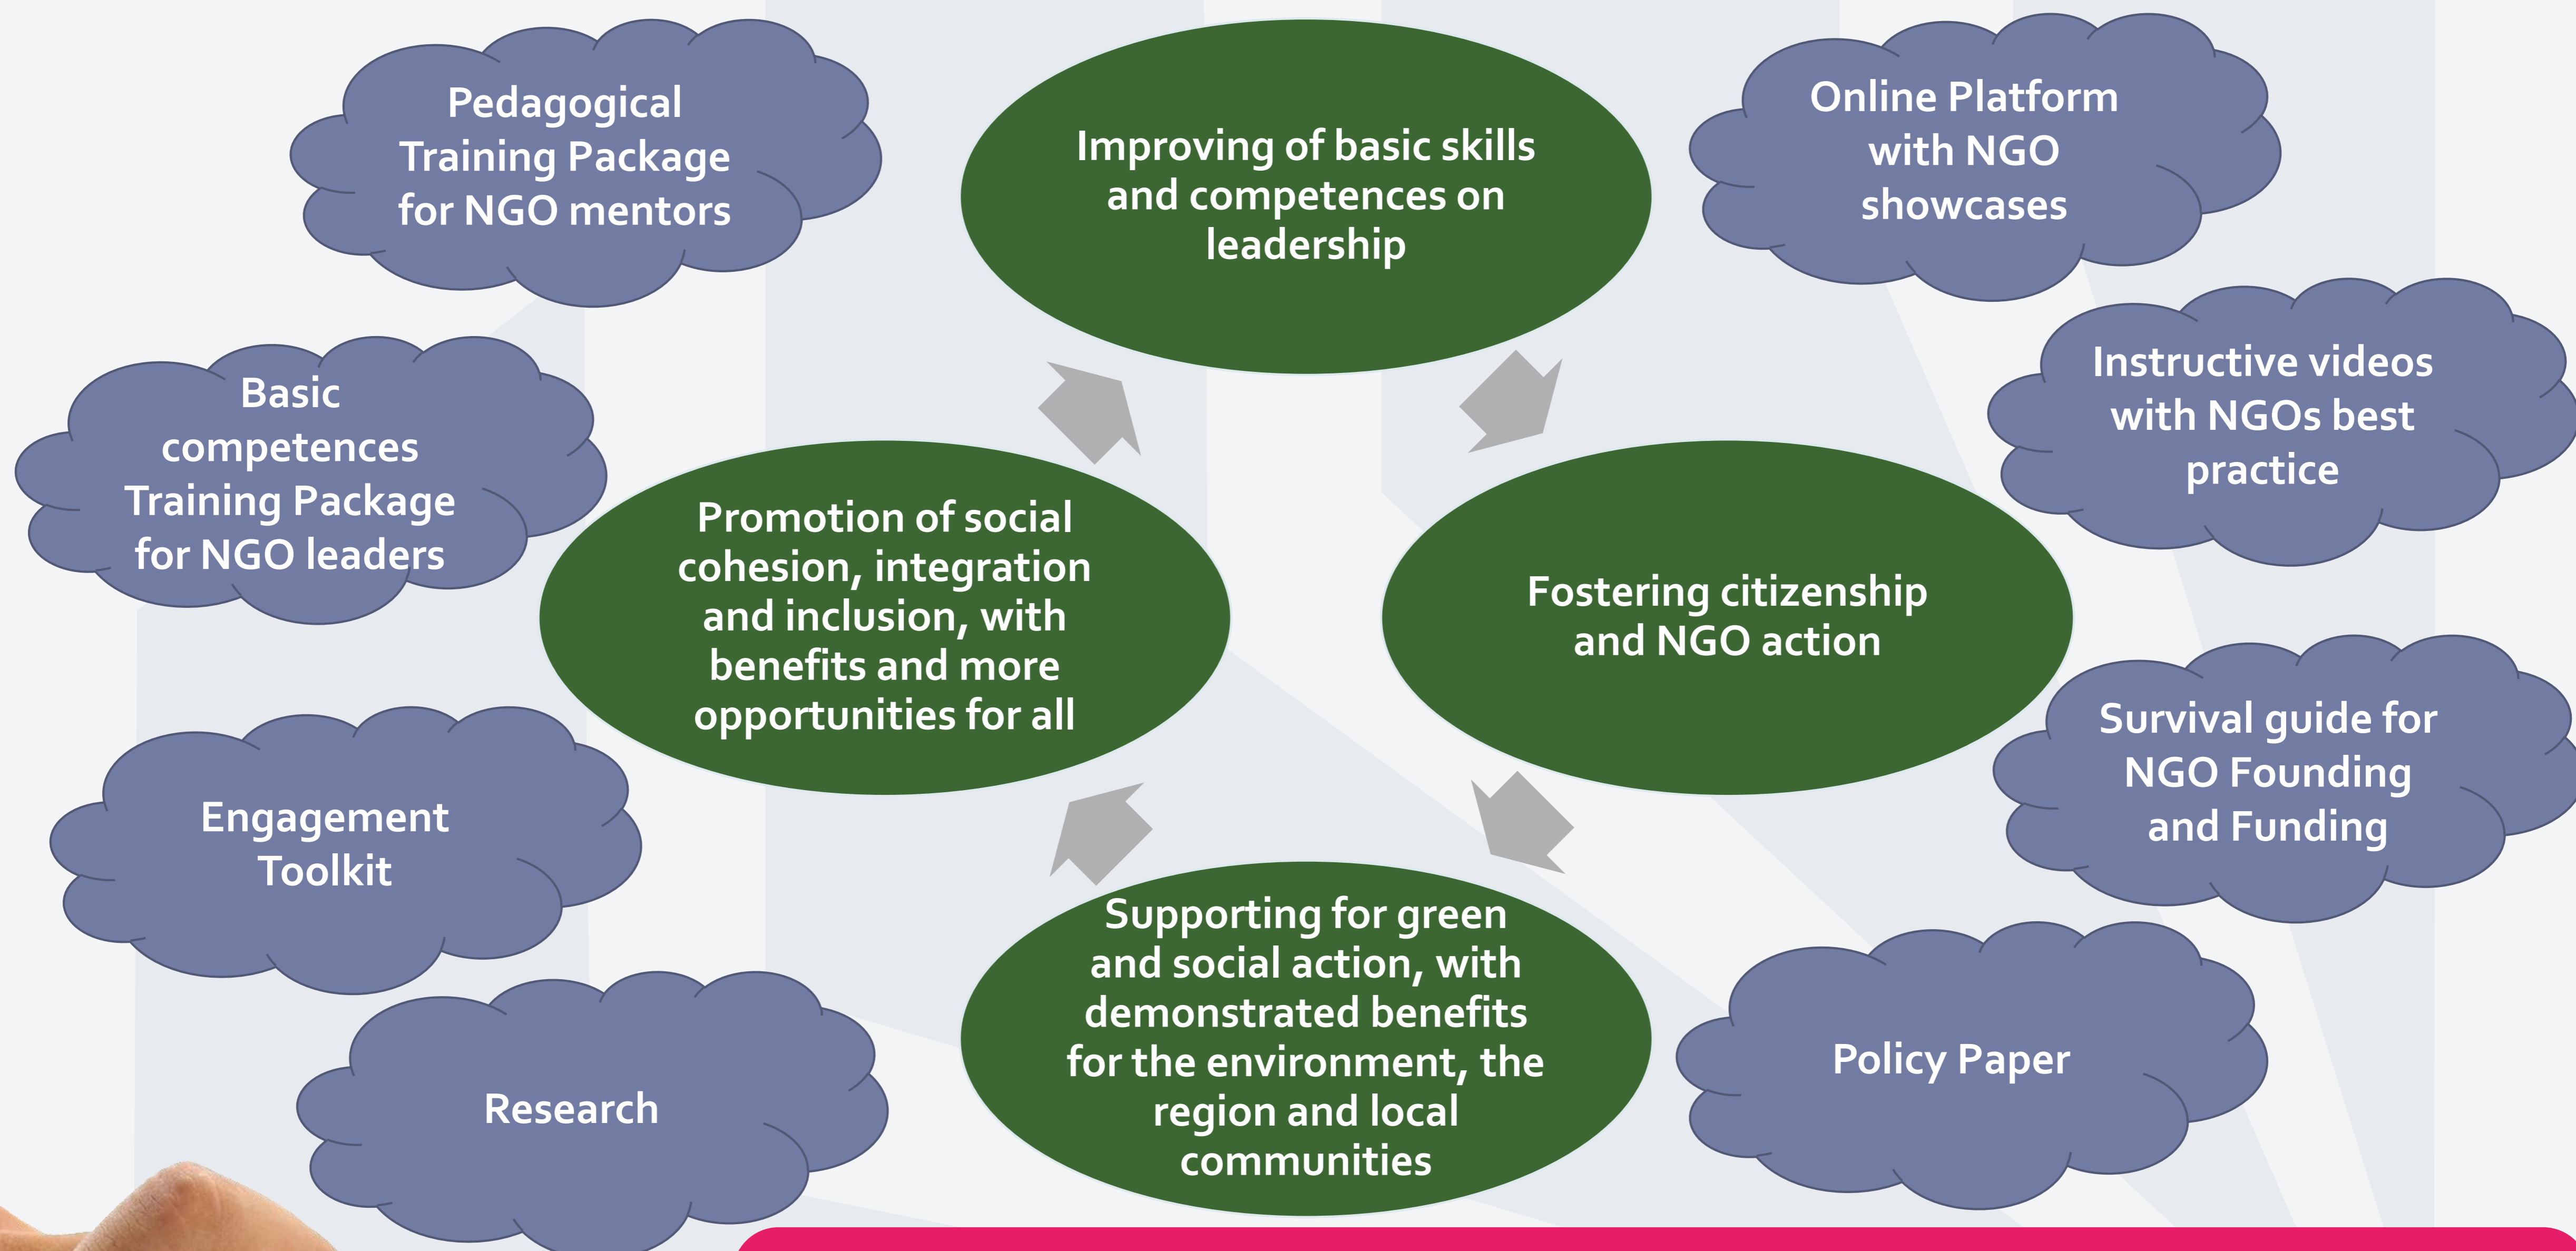

Target group of NGEnvironment

- (1) adults citizens willing to become NGO leaders/entrepreneurs,
- (2) existing NGO staff who are to receive updated training in a perspective of lifelong learning,
- (3) existing NGO staff willing to share their expertise and to support the new leaders by participating in the immersion process.

NGO Non- Governmental Organisation

Aim of the NGEnvironment project

There is the need to train capable leaders able to express their willingness to engage in the issues and challenges they see around them. NGEnvironment will train such leaders, helping to develop the skills needed to find creative solutions to local/regional problems, through associativism, recognising potential leadership and harnessing such qualities for the benefit of the environment and of others, through job creation, social inclusion and active citizenship, sharing benefits with all – as the true objective and building block of NGO democratic and open participation and of sustainability. The project will demonstrate, as intended by the European Commission, that green entrepreneurship is an effective means to boost employment and the efficient use of natural and social capital.

Chair
Business and Human
Resource Education II
Prof. Dr. Marc Beutner
