Foster European Active Citizenship and Sustainability Through Ecological Thinking by NGOs [NGEnvironment]

Infographics 1

A participatory society can only work when citizens are well informed, actively engaged in civic activity and equipped with the skills of advocacy, debate, compromise and leadership!

The NGEnvironment project

Presents clear and tangible benefits for all stakeholders involved.

Improves basic skills and competences on leadership, citizenship and NGO action.

Supports for green and social action, with demonstrated benefits for the environment, the region and local communities.

REMEMBER!

The promotion of social cohesion, integration and inclusion, with benefits and more opportunities for all is a win:win:win situation for all parties involved!

Civic participation matters! There can be no genuine democracy without civic engagement!

Civic engagement, social cohesion and other dimensions of social capital affect social, economic and health outcomes and, therefore, measurement of these phenomena is in the public interest.

Between 2014 and 2020 more than EUR 100 billion from the European Regional Development Fund will be invested to create more sustainable cities and communities.

“Young European are actively engaged. Three quarters have been involved in some form of organised movement. More than seven in ten young respondents have voted in local, national or European elections, while one third have been involved in organised voluntary activities in the last twelve months.”

(Flash Eurobarometer survey 478, April 2019, p. 7)
