#Troviamoci is a multimedia portal, which acts as a quick and easy way to find interested "partners".

#Ovunque

The #Ovunque project consists in taking some young people, selected from high schools in Reggio Emilia, to three international youth camps, held in Berlin (Germany), Olomouc (Czech Republic) and Lublin (Poland).

to understand the culture of Europe is important for people to face and understand the differences and similarities between different countries

#Du iu spik inglish?

This project consist of a series of conversation activities and group games in which English is the only language allowed.

This not only facilitated the conversation in language, but also encouraged the aggregation and formation of a group.

#Mercatino del libro and #Monteore

The #book market aims to help families to support their school expenses by selling used books at 55% of the cover price, thus guaranteeing a saving on books.

The #Monteore is a project carried out in high schools, during the free time, to promote European activities for young people.

#EYE2020

- ▶ It is a unique opportunity for youth to meet and inspire each other and decision makers right in the heart of European democracy.
